

Southwester Coat

It all began with our *EveryWear Jacket Vest*, and for the *Oh, My! Jacket* we added sleeves. In response to customer requests, we then added length for the *Southwester Coat*!

Like all the others, the side panel provides width without changing the lines of the front and back of coat, and makes pocket-access natural and comfortable.

Perhaps the go-with-everything favorite is the “Oregon Trail” patterned Pendleton fabric in ◀ black & white; also available in black/gray, black/red, and tan/taupe.

The Pendleton fabrics are indeed reversible.

Many other fabric selections can be seen on our website, Solarado.com.

More photos on next page.

We always tell our clients, be sure to pick a fabric you really like – these coats just never wear out! 😊
